Before you start your next round of golf take a moment to look through this yardage book. Pay attention to the hazards, playing tips, and basic yardage information to help yourself get a feel for the course. When you go to play each hole, review the playing tip for helpful hints. Look for landmarks like trees, bunkers, or curves in the fairway to align your shots with. Reference the yardage measurements as a tool to help you decide which clubs will be best to use. As you play the hole, you can make notes on the pages of this book for yourself. Next time you come to play our course, you will have a personalized guide to playing your best.

# One

PAR 5 HANDICAP 5

## Green Acres

A great opening par 5 which presents the opportunity to start your rounds with a safe par, or maybe better. A drive of 240 yards places you safely in front of the creek and sets up your second shot. The large green is guarded by a front right bunker and hazard to the left. Play safely to the middle for your best chance at par.

# Two

PAR 3 HANDICAP 3

## Highway Travel

This hole plays a bit longer than the yardage. Left is trouble and right is out-of-bounds, so a safe shot to the middle of the green is the goal. Par is a great score here.

PAR 4 HANDICAP 11

## Cardiac Hill

Short but very steep. A risky drive to the top is possible for the long hitters, but the safe play is to the bottom of the hill. Your approach is safer short than long or right, but make sure you club up for the elevation. Watch for the flashing light before hitting your approach. The green slopes left to right and will feed everything towards to right greenside bunker.

## *Duffer Delight*

A 180-yard shot gets you to the bottom of the hill safely. Favour the left side on your second shot for a better approach angle into the green. The green slopes right to left and is guarded by bunkers on the left side. Missing right makes for a difficult up and down.

## Oh Gully

Straight forward and slightly downhill. Check the wind as it will often push shots to the right. Take dead aim and enjoy a nice chance at birdie or an easy par.

A great chance to drive the green and earn bragging rights. The safe play is about 200 yards favouring the left side as everything will kick right. This is by far the most difficult green on the course and being below the hole is important. Par here can be hard earned.

Use this Club Distance Chart to help gauge your progress and save strokes on the course. Knowing the exact distance you hit your clubs not only enhances your confidence but also replaces guessing with real numbers. This is especially helpful in determining club choice quickly and easily on the course. Knowing your distances is also useful when evaluating your club inventory. When considering adding or replacing a club in your set, knowing the actual distance you hit each club is crucial in choosing the club that will most benefit your game. Why carry two clubs that hit the same distance if you really only need to fill in a distance gap?
