

Ramblers Hiking Group: Hike Rating Guide

EASY:

Flat, or almost entirely flat, on a paved or hard packed trail.

FAIRLY EASY:

Mostly flat or gentle slopes. Trails are varied and possibly muddy in places.

EASY MODERATE:

Combination of an “easy” and a “moderate” hike.

MODERATE:

Trails have hills and may have exposed roots and be rocky and/or muddy.

MODERATE PLUS:

Have more/steeper hills that “moderate” hikes. Trails often have exposed roots, loose rocks and mud.

ADDITIONAL INFORMATION:

Most hikes are approximately 8-10km in length. Some of the more difficult hikes are somewhat shorter. Longer hikes are usually indicated (ex-“easy but long”).

****Do not go to the trailhead without first checking with the leader of the hike. In some cases, the hike may be changed due to weather conditions or other factors.**

***NOTE:**

These ratings apply to RAMBLERS hikes only. Other groups may use different systems, in which case the above designations might mean something completely different to them.
