A. Bardsley (5094 Nelson Avenue; on behalf of K. Parks staff and funding; impact of the village plan on Cypress Provincial Park; and the focus on development and recreation rather than environmental protection.

4. **Ambleside Waterfront Concept Plan** (File: 2520-16)

Mayor Smith introduced the Ambleside waterfront concept plan.

J. Bailey (Director, Planning and Development Services) provided a PowerPoint presentation “Ambleside Waterfront Concept Plan” and spoke relative to presentation slides: Ambleside Waterfront Concept Plan; Policies, Plans and Studies spanning 40 years; Recent Implementation Successes; An Integrated Vision for the Waterfront; Elements of the Waterfront Concept Plan – Public Ownership, Waterfront Destination, Continuous Public Walkway, Shoreline Edge, Arts and Culture, Community Arts, Heritage Values, Waterfront Related Commercial Activities, Accessiblity, Sailing Club, and Building Scale and Character; Next Steps: Stakeholder and Community Consultation; and Consultation: What Are Our Goals.

Council members commented and queried regarding the Ambleside waterfront concept plan including: the Spirit Trail and removal of Argyle Avenue parking; size and height of buildings on the waterfront; flooding, and shoreline protection; consultation with the Hollyburn Sailing Club; status of the cultural strategy update; the Urban Land Institute study regarding re-envisioning the Hollyburn Sailing Club; location of a waterfront bistro; non-motorized boat rentals, boat mooring, and oil spillage; and a user-pay parking strategy. Discussion ensued.

B. Hall (5498 Greenleaf Road) spoke relative to the Ambleside waterfront concept plan including: the overall plan for arts facilities; the proposed Centre for Art, Architecture and Design not being considered within the context of the concept plan; and queried whether public consultation will be regarding the concept plan as well as how the plan will be implemented, or only regarding implementation. J. Bailey responded that staff are asking to consult on the details and priorities of the implementation of the waterfront concept plan, and spoke relative to the separate processes associated with the proposed Centre for Art, Architecture and Design.

E. Lee (215 14th Street) spoke relative to the Ambleside waterfront concept plan including: the Hollyburn Sailing Club does not need a two storey building with a restaurant; moorage on the end of the pier; constructing other buildings around the Ferry Building Gallery will detract from it; and potential uses for existing houses in the 1400 block of Argyle.

S. Slater (1730 Duchess Avenue) spoke relative to the Ambleside waterfront concept plan including: the Upper Lands Working Group demonstrating stewardship and the waterfront deserves the same rigor and consideration; and inclusion of the proposed Centre for Art, Architecture and Design in the public consultation.

M. Slater (1058 Keith Road) spoke relative to the Ambleside waterfront concept plan including: public consultation and the District’s public involvement policy; Planning’s vision for the waterfront may not be the public’s vision; consultation with the public on more than implementation; and requested that Council change the wording of the motion to reflect this.

In response to a query from Mayor Smith, J. Bailey informed that Planning is articulating the community’s vision, staff are open minded and want to talk with the community, and that the consultation is about the implementation details.
H. Johnston (6262 St. Georges Avenue) spoke relative to the Ambleside waterfront concept plan including: public nature of the waterfront is a tremendous asset; current vision is a good springboard for discussion; the proposed Centre for Art, Architecture and Design; and a diversity of approaches for community outreach and engagement.

MOVED by Soprovich, seconded by Lewis:

THAT the Ambleside Waterfront Concept Plan (attached as Appendix A to the report dated October 13, 2015) be endorsed for stakeholder and community consultation.
