Re: Radio Amplification Bylaw No. 5264, 2021

I am writing on behalf of [Name of Owner/Beneficial Owner], to submit this Letter of Intent (LOI) regarding the provisions of the "Radio Amplification Bylaw No. 5164, 2021" as they pertain to the above-mentioned building or project.

As part of our Building Permit submission, we are committed to complying with the requirements of Radio Amplification Bylaw No. 5164, 2021.

Whereas [Name of Owner/Beneficial Owner], has been in discussions with the Fire Chief and is providing this Letter of Intent (LOI) which describes [Name of Owner/Beneficial Owner] intent to provide adequate radio coverage as described in Bylaw No. 5164, including installing an E-Comm radio communication system that meets all relevant requirements under the bylaw.

We will ensure that the building is constructed to a suitable point before a contractor surveys the structure for areas not meeting the minimum standard for Delivered Audio Quality of 3.4 and design a system which meets all necessary requirements of the bylaw.

Thank you for your attention to this matter. If you require any further information or have any questions, please do not hesitate to contact us.

Yours truly,
