# Value for Services Working Group

# **REPORT – Background Information**

# **INTRODUCTION**

The Value for Services Working Group was formed "to review the cost realities associated with existing municipal services, conduct a public education process on the costs of municipal services, and conduct a public process on possible service level adjustments for the 2010 Budget, in combination with a Three Year Plan for 2010-2012."

The duties of the WG comprised two phases:

- "Survey Phase" (July-September, 2009) compiling and analyzing data on municipal services and costs, and distributing a survey to residents. This phase included development of the background material provided herein.
- "Recommendation Phase" (October-November, 2009) developing recommendations for West Vancouver's Mayor and Council on service level adjustments in future budgets, based on results of the survey and data analysis.

There are 15 charts on the following pages – ten tables and five graphs and two worksheets. The data source for each chart is indicated, and comments are provided for each of the tables. The graphs illustrate some of the information in the tables.

To create a picture of *"cost realities",* the following information is provided:

- Costs of District services, including staffing and user fees (inputs);
- Recent trends;
- Comparisons with other municipalities;
- Measures of service levels (outputs).

The principal sources of data used include:

- BC Local Government Statistics, BC Statistics
- West Vancouver, 2008 Annual Report
- West Vancouver, 2009 Preliminary Budget
- Maclean's Magazine Survey of 31Canadian Cities (July 27, 2009)

Comparisons with other municipalities include Burnaby, Surrey, Vancouver, Richmond which ranked #1, #3, #4, #14 respectively in a recent Maclean's Survey of 31 Canadian Cities (July 27<sup>th</sup>, 2009). Together with North Vancouver City, North Vancouver District, Oak Bay, Saanich, Victoria, they are considered to provide a reasonable "benchmarking" perspective.

# **CHARTS & WORKSHEETS**

- 1. These charts were prepared by the Value for Services Working Group in July-September, 2009, to assist in completing their assignment.
- 2. The charts are NOT publications of the District of West Vancouver. They have been developed by the Working Group, who are totally responsible for their content.
- 3. The charts are based on published data sources, as noted in each case.
- 4. Best efforts have been made to ensure that the information in the charts is accurate. However, it clearly cannot be guaranteed and should be treated with caution, as errors and anomalies are possible, both in the data sources and in the Working Group's compilations.
- 5. Additional background information is expected to be produced in the "Recommendation Phase".

Value for Services Working Group – Final Report – November 30th, 2009.

#### #1. Taxes & Charges on a "Representative House"

Municipality	2005	2008	% Annual Increase	% Paid by Residents
West Vancouver	6,098	6,823	3.8	92.0
North Vancouver - City	3,491	3,812	3.0	50.7
North Vancouver - District	3,990	4,704	5.6	70.0
Vancouver	4,092	4,562	3.7	47.8
Burnaby	3,544	3,820	2.5	68.7
Richmond	3,422	3,966	5.0	49.6
Surrey	3,137	3,597	4.7	47.9
Oak Bay	4,278	4,704	3.2	95.7
Saanich	3,146	3,307	1.7	80.2
Victoria	3,341	3,767	4.1	47.1
British Columbia - All Municipalities	2,308	2,718	5.6	54.7

BC Government - Municipal Statistics, 2008 - Schedules 704, 707.

#### #2. Where the Payments for a "Representative House" Go

West Vancouver	2005	2008	% Annual	Average
west vancouver	2005	2000	Increase	Percent
Municipal Operations	2,799	3,178	4.3	46.3
Utilities (Water, Sewer, Garbage)	805	959	6.0	13.7
Schools	1,849	1,961	2.0	29.5
Regional District	91	102	3.9	1.5
Transit	554	623	4.0	9.1
Total Payments	6,098	6,823	3.8	100.0

#3. Revenues from Municipal Taxes & Services Only (\$/Capita)

2005

1,713

. . . .

BC Government - Municipal Statistics, 2008 - Schedules 703, 704.

**Municipality** 

0:1

West Vancouver

North Managerran

• Of the taxes and charges levied against properties by West Vancouver, 92% is paid by residents and 8% by businesses.

 In a typical BC municipality, businesses pay 30-50% of such taxes and charges.

The rate of increase in property taxes and charges has been lower in West Vancouver than in BC as a whole, from 2005-2008.

- The value of a "representative house" in West Vancouver was \$1.56 million in 2008.
- Charges and taxes are approximately • proportional to assessed values.
- The 2006 Census reported 18,057 places of residence in West Vancouver.

• About 60% of property taxes & charges collected by West Vancouver are for the District's own operations, both general services and utilities.

• The remaining 40% are split – 30% for Schools, 9% for TransLink, and 1% for the Metro Vancouver Regional District (GVRD).

#### West Vancouver's property taxes and charges for services are significantly higher than in most other BC municipalities, though only slightly higher than in Victoria.

• Their annual rate of increase at 6.6% over the past 3 years is also higher compared to other municipalities, and to the 5.9% rate for BC as a whole.

• West Vancouver's population in 2008 was estimated to be 42,853, representing an annual growth rate of 0.4% since 2004.

North Vancouver - District	1,249	1,439	4.8

North Vancouver - City	1,194	1,411	5.7	48
North Vancouver - District	1,249	1,439	4.8	86
Vancouver	1,529	1,700	3.6	615
Burnaby	972	1,141	5.5	218
Richmond	1,149	1,325	4.9	189
Surrey	687	785	4.6	434
Oak Bay	1,329	1,535	4.9	18
Saanich	934	1,123	6.3	113
Victoria	1,587	1,920	6.6	82

#### #4. Revenues from All Sources (\$ Millions)

West Vancouver	2005	2008	% Annual	Average
West Vanoouver	2000	2000	Increase	Percent
Property Taxes	43.9	50.1	4.5	47.2
Fees & Charges	8.6	10.5	6.9	9.5
Licenses & Permits	3.5	3.6	0.8	3.6
Other Revenue	4.4	7.3	18.1	5.9
Government Grants	1.0	1.2	7.6	1.1
Utilities (Water, Sewer, Garbage)	14.9	18.2	6.8	16.6
Transit Reimbursements	8.7	11.5	9.9	10.2
Sundry Financial	4.0	7.7	24.6	5.9
Total Revenues	89.0	110.2	7.4	100.0

9.5 municipalities.
3.6 • West Vancouver is unique among BC
5.9 municipalities in operating it's own transit

• Property taxes have increased more slowly (4.5% annually) than revenues from utilities and other sources.

service, the Blue Bus. However, it is fully compensated for that cost by TransLink.

• Property taxes account for about half of West Vancouver's revenues, excluding transit. That's comparable to other BC

West Vancouver - 2008 Annual Report.

#### #5. Where West Vancouver Spends Its Money (\$ Millions)

West Vancouver	2005	2008	% Annual Increase	Avg.% of Total
Administration	3.5	3.8	2.7	3.2
Financial Services	3.1	3.7	5.5	3.0
Police Services	9.7	11.8	6.9	9.5
Fire & Rescue Services	10.2	11.5	4.3	9.6
Engineering & Transportation	3.1	4.0	9.5	3.1
Planning & Lands	2.4	2.8	5.0	2.3
Parks & Community Services	14.5	16.7	4.8	13.7
Library Services	3.2	3.7	4.7	3.0
Utilities (Water, Sewer, Garbage)	13.1	15.1	4.7	12.4
Transit Operating	8.7	11.5	9.9	8.9
Sundry Financial	1.8	5.1	42.1	3.0
Operating Expenditures	73.3	89.8	7.0	71.8
Capital Expenditures	20.1	44.0	29.8	28.2
Total Expenditures	93.4	133.7	12.7	100.0

West Vancouver - 2008 Annual Report.

• The share of resources allocated to West Vancouver's various activities (excluding capital investments) has remained fairly constant in recent years.

• Since 2004, the District has completed several major capital projects: Gleneagles Community Centre (\$10M), universal water metering (\$7M), Eagle Lake water filtration plant (\$17 M), the new Community Centre (\$40M).

• Capital costs increased substantially in recent years, as the District completed its program of recreational facility investments, and upgraded its water supply system.

• The District's reserves at year-end 2008 totalled \$49 million.

#### #6. Comparative Municipal Costs (\$/Capita) - 2008

Municipality	General	Protective	Development		Parks, Recr.	Water	Sewer	Solid Waste	Other	Expenditures
	Government	Services	Services	& Transit	& Culture	Services	Services	& Recycling	Services	Excl. Capital
West Vancouver **	197	567	64	144	495	121	136	43	58	1,825
North Vancouver - City	198	384	76	68	352	92	103	35	45	1,354
North Vancouver - District	141	380	22	70	370	113	97	56	29	1,278
Vancouver	181	466	78	152	337	95	90	86	50	1,535
Burnaby	206	381	72	152	359	143	119	55	2	1,490
Richmond	173	340	51	147	235	118	112	39	0	1,357
Surrey	62	304	37	45	108	80	85	46	29	797
Oak Bay	191	384	0	152	539	131	31	60	0	1,488
Saanich	87	317	18	112	250	95	48	38	7	972
Victoria	288	660	26	188	329	112	20	74	0	1,697
British Columbia - All Municipalities	144	321	46	137	219	83	76	47	47	1,184

BC Government - Municipal Statistics, 2008 - Schedule 402.

\*\* EXCLUDES "Blue Bus" Costs of \$269, Fully Reimbursed by TransLink.

- The costs of most services in West Vancouver are significantly higher than in other BC municipalities.
- For example, costs per capita for Parks, Recreation and Culture are roughly double those costs in many other BC municipalities.
- The costs of protective services are also higher, except in Victoria.

#### #7. Municipal Operating Costs & Total Costs (\$/Capita)

Municipality	Оре	rating Costs	Only	Total Costs Including Capital				
Municipality	2005	2008	2008 %/Year		2008	%/Year		
West Vancouver	1,787	2,095	5.4	2,165	2,912	10.4		
North Vancouver - City	1,181	1,354	4.7	1,457	1,971	10.6		
North Vancouver - District	1,056	1,278	6.6	1,406	1,608	4.6		
Vancouver	1,280	1,535	6.2	1,644	2,160	9.5		
Burnaby	901	1,490	18.3	1,169	1,490	8.4		
Richmond	976	1,357	24.5	1,213	2,552	28.1		
Surrey	609	797	9.3	983	1,198	6.8		
Oak Bay	1,216	1,488	6.9	1,411	1,488	1.8		
Saanich	826	972	5.6	1,026	1,151	3.9		
Victoria	1,424	1,697	6.0	1,778	2,050	4.8		
British Columbia - All Municipalities	889	1,184	10.0	1,246	1,655	9.9		

BC Government - Municipal Statistics, 2008 - Schedule 402.

INCLUDES "Blue Bus" Costs, \$269 (Reimbursed).

• West Vancouver's Operating Costs have increased at 5.4% per year over the past three years, which is considerably less than the 10% increase in Metro Vancouver and British Columbia as a whole.

• When capital costs are included, all three of these jurisdictions registered annual increases of 10%. In West Vancouver's case, this was largely due to the \$40 million cost of the new Community Centre, which completed the Districts major recreational facility building program.

#### #8. West Vancouver Reserves & Debts (\$ Millions)

West Vancouver	2005	2008	2005-08	% Annual
West Valicouver	2005	2008	\$ Change	Change
Reserve Funds	35.6	25.9	-9.7	-10.1
Operating Surplus	5.1	2.1	-3.0	-25.6
Development Cost Charges	20.7	21.1	0.4	0.7
Total Reserves	61.4	49.1	-12.3	-7.2
Debt Principal Outstanding	9.2	35.2	26.0	56.2
Net Balance	52.1	13.9	-38.3	-35.7

West Vancouver - 2008 Annual Report.

• At year end 2008, West Vancouver's reserves totalled \$49 million.

• The District's outstanding debts of \$35 million represents \$817 per capita, roughly double the average for all BC municipalities.

#9.	Department Values	-	Financial Measures -	-	2009
	Department Values		i manolai measares		2000

West Vancouver	\$ '(	000	Financial Measures

19. District Total	91,796	52,905	57.6%	907.55	

2009 Preliminary Budget

\*\* 2008 Annual Report

Chart #9 shows the percentage of operating costs recovered through revenues by the District's General Services and Utility departments. Also shown are their net costs per capita.

• General Services departments recover 25% of their costs.

• All utilities generate surpluses, amounting to about 20% of overall operating costs.

• Excluding Transit and "other", the surpluses of utilities represented 37% their of their operating costs in 2008.

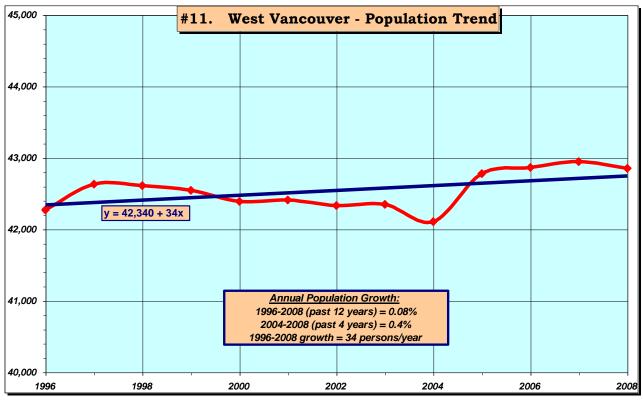

#### #10. Activity Values - Financial Measures, Service Levels, Unit Costs - 2009

2009 Preliminary Budget

Chart #10 is a breakdown of Chart #9 into specific activities, and contains not only financial performance measures, but also output measures showing the levels of services delivered to residents. Cost recovery through revenues is shown, together with estimated costs per unit of the services delivered. For example:

- The Ferry Gallery recovers about 24% of its operating costs, for a net cost of \$2.26 per person visiting it.
- The Aquatic Centre recovers 76% of its operating costs, for a net cost of \$1.33 per attendee.
- A Library card is worth about \$120 per year, and the cost of borrowing a book or disc is \$3.68.

Government of BC: BC Statistics (Feb. 2009).

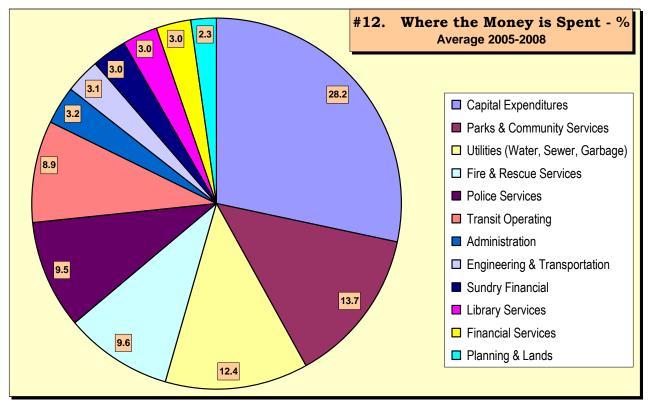

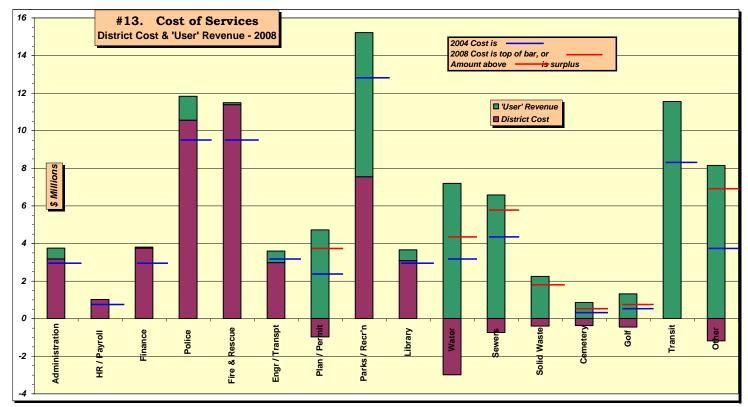

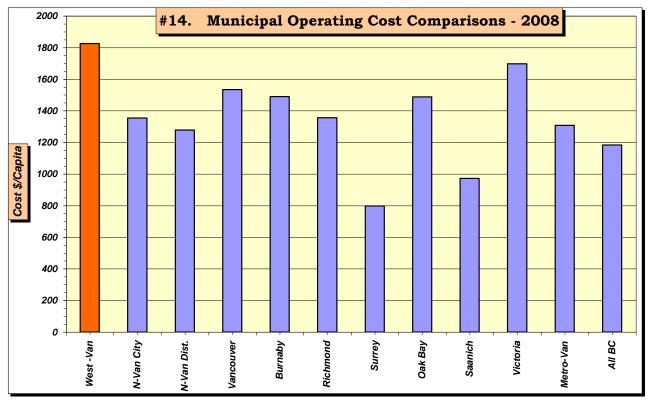

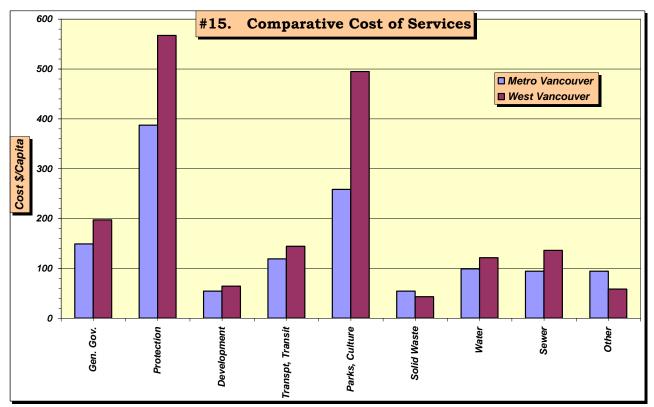

Chart #5: West Vancouver - 2008 Annual Report.

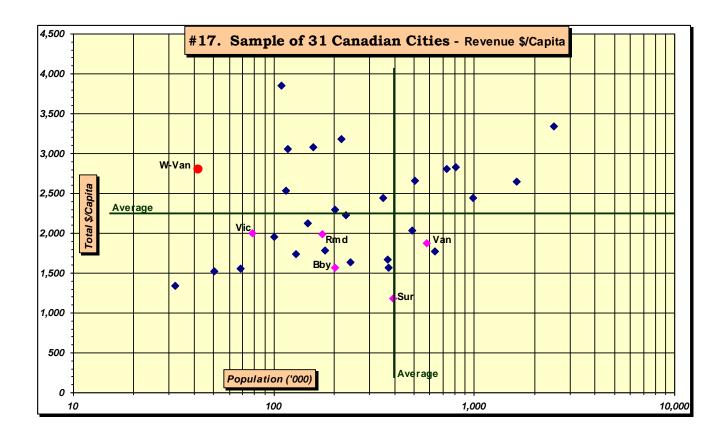

West Vancouver - 2009 Proposed Budget

<u>Chart #6:</u> BC Government - Municipal Statistics, 2008 - Schedule 402.

Maclean's Survey of 31 Canadian Cities - July 27, 2009.

RANKINGS: Burnaby #1, Surrey #3, Vancouver #4, Richmond #14, Victoria unranked.

# Value for Services Working Group RECOMMENDATIONS

The Conclusions and Recommendations of the Value for Services Working Group are summarized in this Report. There are two Appendices containing a great deal of detailed information:

- 1. **Background Information** prepared by the Working Group, and posted on the District's website in support of the Value for Services Survey of District residents;
- 2. Results of the Value for Services Survey prepared by Synovate (Western Canada) Ltd.

This was a complex project, made more challenging by the extremely short time frame available for its completion. While this Report and its Appendices provide a large amount of information, they are also likely to raise questions. The Working Group would be pleased to respond to such questions.

#### Introduction

The Value for Services Working Group was formed "to review the cost realities associated with existing municipal services, conduct a public education process on the costs of municipal services, and conduct a public process on possible service level adjustments for the 2010 Budget, in combination with a Three Year Plan for 2010-2012" (Terms of Reference).

The activities of the Working Group comprised two phases:

- "Survey Phase" (July-September, 2009) compiling and analyzing data on municipal services and costs, to provide a factual basis for undertaking a Value for Services Survey of Residents. It should be noted that, due to time constraints, the public education process was limited to the four-page brochure accompanying the Survey, and the posting of background information on the District's website.
- "Recommendation Phase" (October-November, 2009) "recommending service level adjustments in future budget deliberations."

The data sources used in this project include:

- BC Local Government Statistics, BC Statistics
   <u>http://www.cd.gov.bc.ca/lgd/infra/statistics\_index.htm</u>
- West Vancouver, 2008 Annual Report
   <u>http://www.westvancouver.net/Government/Level3.aspx?id=3286</u>
- West Vancouver, 2009 Preliminary Budget
- Maclean's Magazine Survey of 31Canadian Cities (July 27, 2009)

#### Survey of Residents

The Working Group wishes to highlight the following findings from the Value for Services Survey of West Vancouver residents.

- 1. The Survey is not statistically representative. Although there were 610 respondents, a good sample size for many surveys, this group was self-selected and is not a random sample.
- 2. The Working Group believes that the Survey provides a reasonable reflection of the attitudes of residents for the purposes of the Working Group's mandate. This is supported by the overall consistency of the responses to Q1 (overall satisfaction), with previous random surveys of residents conducted by the District in recent years.
- 3. The Survey results should be considered directional rather than definitive and, as such, can serve to help point the District to areas for further consideration and investigation, and indicate where residents are likely to support or oppose certain initiatives.
- 4. Overall, the Survey results show that satisfaction with the District's services is positive.
- 5. The Survey results provide no clear indication for reducing or enhancing any particular service.
- 6. The Survey results indicate that respondents favour options of reducing spending, finding efficiencies, and increasing user fees. This is indicated by the low level of satisfaction and value with General Government, the high rate of mentions allocating funds from General Government to other service areas, and the frequency of specific comments and suggestions aimed at reducing costs and finding efficiencies.
- 7. Reponses to Q9 (suggestions for improvement) indicate that 40% of Survey respondents recommended cost reductions or improved efficiencies. This is particularly significant, and should be highlighted, because respondents made the effort to write down something in response to the question.
- 8. There is a curious disconnect in the results. On the one hand respondents say that, overall, they greatly appreciate the services they get from the District, and don't want to see significant reductions. On the other hand, they don't want to pay more for these services they want the District to hold the line and, if anything, incrementally reduce the costs of delivery.
- 9. Responses to Q3 (perceived value of the municipal share of property taxes) indicate that 18% of respondents see "very good value", 54% "somewhat good value", and 28% see the value as "somewhat poor or very poor". In other words, 82% of respondents see room for improvement, and a significant minority see a lot of room for improvement.
- 10. Respondents have very little interest in new services if higher taxes are involved. Only 6% would support this.
- 11. Responses to Q8 (acceptable tax increase) indicate that 63% of respondents would find a 1% tax increase acceptable, while only 19% would find a 3% increase acceptable.
- 12. Respondents generally support user fees.

#### **Recommendations**

The following recommendations reflect the findings and deliberations of the Working Group, including results of the Survey of residents, the analysis of financial and operational data from West Vancouver and other municipalities, and discussions at meetings of the Group.

The members of the Working Group, and their Council and Staff liaisons, see the current work as "the end of the beginning" – a reasonable "first step" in assisting the District to chart a sustainable operational and financial future for West Vancouver.

- 1. Council should establish a clear commitment to financial restraint, with a simple, high level, and high profile statement of commitment. Such a statement appears to be lacking currently. Further:
  - Employee performance measurement indicators should capture this commitment;
  - Council should adopt a target level of tax increases relative to core inflation, or use the rate of inflation as the maximum acceptable increase.
- 2. Service level enhancements that result in higher taxes, whether from capital expenditures or operating costs, should be carefully evaluated, and approved only if they are in the public interest and respond to documented resident demand.
- 3. Since labour costs are the largest component of expenditures and expenditure increases, a focused effort should be placed on increasing efficiencies through:
  - Alternative delivery methods;
  - Increased employee productivity.
- 4. A comprehensive review of user fees should be undertaken, with a set time frame to deliver a report and recommendations to Council. The Survey results of Q6 (support for user fees) should be used for general guidance.
- 5. Similarly, a review of all leases to the private sector or private individuals of municipal lands or assets should be undertaken, with a view to moving to market rates.
- 6. Investigation should be undertaken to determine and address the underlying causes of the relatively low level of satisfaction with Engineering and Transportation, and with Planning, Lands and Permits.
- 7. The Survey results and the information provided to Council by the Value for Services Working Group are directional rather than definitive. Therefore, the Working Group recommends that the District consider further investigations of the attitudes and opinions of residents through working groups and other avenues.

### Addendum – Findings from the Data Analysis

The items below illustrate the contents of the Background Information posted on the District's website, which forms part of this Report. It contains financial data about District activities from 2005-2008, comparisons with other municipalities, and "value for service measures" (Tables 9, 10).

Additional background data, which may be useful in the District's Budget deliberations, is contained in two spreadsheets:

- "A" Value for Service Evaluation Matrix, summarizing District financial data from 2004-2009;
- "B" Summary of the Maclean's survey of 31 Canadian cities (July, 2009) showing three dozen performance variables for each, with corresponding data for West Vancouver added.
- 1. Compared to BC municipalities and to the Maclean's survey of 31 Canadian cities, costs and staffing levels are significantly higher in West Vancouver.
- Taxes and charges in 2008 on an average single-family house amounted to \$6823 in West Vancouver, compared to \$4704 in North-Van. District, \$4562 in Vancouver, and \$3812 in North-Van. City.
- Municipal operating costs for West Vancouver in 2008 were \$1825 per capita, compared to \$1300 in North Vancouver (City and District) and \$1200 for all BC municipalities.
- West Vancouver's staffing level amounts to one employee per 59 residents, compared to a 98 average in the Maclean's survey. Access to comparative municipal data for BC could not be obtained.
- 5. West Vancouver's revenues from municipal taxes and charges have increased at an annual rate of 6.6% from 2005-2008. The average for all BC municipalities was 5.9%.
- In recent years, West Vancouver's capital expenditures have been its single largest budget item. They averaged 28% over the past four years – the next largest item was Parks & Community Services at 14%.
- 7. West Vancouver obtains 46% of its revenue from user fees and charges, compared to an average of 27% and a maximum of 47% in the Maclean's survey of Canadian cities.
- For example, the Aquatic Centre recovers a high 74% of its operating costs through user fees, with the remaining 26% costing \$20/capita annually.

- 9. Parks & Community Services recover 58% of their operating costs through user fees, and Cultural Services 25%.
- 10. A library card is worth \$120 per year, and the cost of borrowing an item is \$3.70.
- 11. The District's utilities have been generating operating surpluses, averaging \$5 million annually in the past four years.
- West Vancouver's population has been growing slowly – 170 residents (0.4%) per year in the past four years, and an annual average of only 34 over the past 12 years.
- 13. The relative acceptability of different levels of tax increases is illustrated in the chart below, by means of a cumulative representation of the responses to Q8 of the Survey (acceptable tax increase). It shows that a tax increase of 1% would be acceptable to 63% of respondents, while this would drop to 19% for a 3% increase.
